

Solid Plastic Lockers

Whether you are an owner, facility manager, or architect, you will appreciate the low maintenance and high aesthetic value of solid plastic.

MATERIAL

Fabricated from an advanced formula of high density polyethylene (HDPE) with 30% pre-consumer recycled material, Lenox solid plastic lockers offer the lowest maintenance and the highest durability. With an odor absorption rate of nearly zero, solid plastic is the perfect solution for highly humid or wet areas. Choose from solids or speckled colors. Lenox solid plastic lockers are covered by a 20-year warranty against rust, corrosion and delamination under normal use.

PRODUCTS

Solid plastic lockers, gear lockers, XL-lockers, Z-lockers, bench lockers, cubby lockers and pedestal benches.

APPLICATIONS

Educational institutions, theme parks, stadiums, arenas, health clubs, food service, waterparks, locker rooms, and any other high-traffic and/or high humidity or wet area.
