

POLYLIFE[®]

COLOR CHART

Also known as HDPE (High Density Polyethylene), PolyLife[®] is created from 100% recyclable solid plastic material. It is an excellent option for high-traffic areas and is resistant to scratches and graffiti, along with a non-porous surface. PolyLife[®] is the same color throughout the material.

ECO-FRIENDLY

Contributes to Green Building Certifications

CLEANER SURFACES

Antimicrobial Lockers Available
